

SCHÄFER Container Systems – The container solution for your wine

SCHÄFER Container Systems – Container systems for the beverage industry!

Drinks on draught. Any place, any time. Innovative reusable containers provide pure enjoyment from the first drop to the last. Beverages in barrels are the latest trend. More and more people at many different occasions increasingly prefer to take a glass of wine, Prosecco or sparkling wine. With its range of reusable KEGs, SCHÄFER can offer solutions tailored to this gastronomic and catering trend. In contrast to numerous opened bottles, SCHÄFER KEGs guarantee enjoyment right down to the last drop, without any loss in quality.

For four decades, SCHÄFER has been setting standards with innovative ideas and products and has acquired extensive container expertise in re-usable keg technology. Worldwide, there are currently over 25 million SCHÄFER KEGs in use in the beverage industry. Of these, one million can already be found on the wine market.

SCHÄFER Container Systems – Container solutions for your wine and sparkling wine

You would like to offer your customers a large selection of beverages in the best possible quality, but only have limited space? Then our slim-line KEG solutions are just what you need!

- A systems supplier with an extensive portfolio
- KEGs and accessories from a single source
- The KEG as your brand ambassador
- Top quality – in use worldwide
- Individual consulting on site

SCHÄFER KEGs – Top quality for fine wines

The joy of life – in a glass

Wine comes in many varieties: whether red, rosé or white wine, or sweet, dry or sparkling. Especially the various, sometimes even world famous red wines are very popular, but also the white varieties have a great many aficionados. To be able to offer the best quality wines in any restaurant, put your faith in the intelligent and efficient container solutions from SCHÄFER Container Systems, the KEG specialists.

SCHÄFER KEGs –

A big plus in efficiency and economy

The Perfect Business Cycle

SCHÄFER KEGs are the efficient and practical solution for those who demand the highest standards. Customers can benefit from space-saving storage, there are no empty bottles for disposal and the costs are significantly more favourable than for bottles. All beverages can always be dispensed in optimum quality. On top of this, a perfect business cycle and easy handling are also very convincing arguments in favour of SCHÄFER KEGs.

The benefits are obvious

- **Fitting:** All fitting variations can be integrated
- **Dispense head:** the right dispense head to match every fitting
- **Traceability:** with coding such as character code, barcode, or a transponder
- **No disposal of empties necessary**

SCHÄFER junior PLUS KEG – Compact and slim

junior PLUS KEG: whether fully or partly coated with polyurethane, the KEG offers all the benefits of the PLUS KEG, along with its compact dimensions.

Available for wine in 10.4, 15.5 or 20.5 litres in DIN standard. All the benefits in one single KEG. Perfect technology, safe handling, full PU coating, tested for safety, distinctive brand presentation and reliable logistics. What more can a KEG offer?

¹⁾ Weight without fitting ²⁾ 10/12/15 l = Without roller

SCHÄFER ECO Junior KEG – The lightweight

A strong brand presentation in a slim-line design – that is the SCHÄFER ECO Junior KEG. Individual branding turns these KEGs into real eye-catchers and sets new standards in flexibility, as a safety clip enables the top and bottom rings to be exchanged quickly and easily. These fully recyclable PP (polypropylene) rings result in a considerable weight reduction compared to KEGs made completely of steel and they also prevent damage to the KEG in daily use, thanks to their shock absorber effect.

Content	5.2 l 1.37 US-gal	10.4 l 2.75 US-gal	15.5 l 4.10 US-gal	19.5 l 5.16 US-gal	20.5 l 5.42 US-gal

Weight ¹⁾	ca. 1.9 kg	ca. 2.5 kg	ca. 3.2 kg	ca. 3.6 kg	ca. 3.7 kg

SCHÄFER freshKEG –

Fresh draught beer, any place, any time

Flexible small-scale dispensing unit

freshKEG is simply ideal for parties and festivals, large-scale events, bistros and catering businesses, because the two-chamber system with the world's shortest dispensing line guarantees maximum flexibility and quality. Any place, any time. Specially developed cooling accessories (ice-packs, cooler) make sure that the temperature of your wines and sparkling wines is exactly right to keep your customers more than satisfied.

Content ¹⁾	5.2 l 1.37 US-gal	10.4 l 2.75 US-gal

Height	258 mm	394 mm
External Ø	253 mm	253 mm
Weight ¹⁾	ca. 3.6 kg	ca. 4.7 kg

¹⁾ Andere Gebindegrößen zwischen 5 und 15 Liter Inhalt sind in Abhängigkeit von der Bestellmenge möglich

SCHÄFER smartDRAFT™ –

Fresh wine for small restaurants

Experience the true flavour of your wine!

smartDRAFT™ provides top quality and guarantees pure enjoyment, whether you use it as an alternative to an existing bar, as an additional dispensing point for wine and sparkling wine specialities, or even as mobile bar for outdoor events.

Open up new market opportunities for your business by offering wine, sparkling wine and Prosecco in premium quality, especially where, up to now, the drinks all came from bottles!

Convincing benefits

- Enjoy the flavour of permanent freshness and best dispensing quality
- Perfect drinking temperature, all the time
- Perfect hygiene, thanks to the one-way dispensing line
- Integrates nitrogen supply
- Ideal for smaller restaurants and catering businesses
- Low investment costs
- No dispensing wastage
- No cleaning required for dispensing lines and dispense head, no servicing and maintenance costs
- New sales potential due to mobile dispensing

Content ¹⁾	10.3 2.72 US-gal
Filling volume	10 l
Height	411 mm
External Ø	253 mm
Weight ¹⁾	ca. 5.0 kg

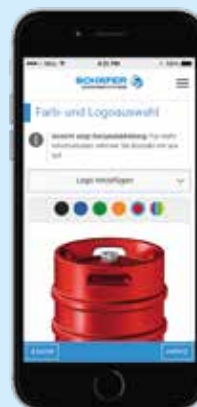

SCHÄFER KEGs –

The brand ambassadors

Get your brand noticed!

Turn your product into a brand! We can offer you a great variety of branding possibilities for your KEG. Display your design with eye-catching coloured logos on colour co-ordinated top and bottom rings. Advertise your latest product with KEG banderols or apply the appropriate signature to your barrels. Stand out from your competitors and position your brand with a strong, individual brand presentation, tailored perfectly to your KEG. We'll be happy to help you!

SCHÄFER KEG App

Configure your own individual KEG, Find out about the models we have available, store your data or send us a specific inquiry. The KEG App from SCHÄFER Container Systems provides an informative product overview with which you can conveniently configure your KEG, wherever you happen to be!
